Every 4 ½ minutes, a baby is born with a birth defect in the United States. That is nearly 120,000 babies affected by birth defects each year. This number does not include the 1 in every 68 children diagnosed with autism, the older children diagnosed with other conditions, or the children who have tragic accidents that cause permanent disabilities.

There are so many families who have children with special needs who lack community support and resources and we provide that to them.

Mission

The Mission of ThisABILITY is to offer support and encouragement to families who have or are expecting children with special needs, to ensure they have the Resources and Information they need available to them, to Educate and Advocate, and to create Awareness and Acceptance.
